AVENUE VASE

\$130

DESCRIPTION

Evoking the understated charm of 50s home decor, this vase will be a striking addition to a rustic or modern home. Its crisp and refined silhouette was crafted by hand of ceramic, and is hand decorated with a series of intersecting blue lines, like the map of a big city with its pattern of crossing streets and avenues. The effect is sophisticated and unique and will make a statement in any room in the house, also combined with others in the same Avenue series.
