AXEL SIDEBOARD

\$10,230

DESCRIPTION

Masterfully crafted, this distinctive sideboard provides functional storage for serveware or odds and ends in a modern living or dining room. The imposing silhouette is crafted of maple wood with an exclusive glossy, gray bird's eye finish that creates a distinctive pattern recalling small, swirling eyes emerging from the smooth lines of grain. Raised on a minimal plinth base, the four doors feature two internal spaces, each with a shelf of erable wood with a stunning deep-grained luster also in glossy gray finish.
