AXIS LARGE DINING WITH CLEAR GLASS TOP TABLE BY STEFANO BIGI

\$14,790

DESCRIPTION

This stunning dining table is part of the Mobius collection designed by Stefano Bigi. The elegant top is a rectangle with round corners in tempered glass with a clear glass finish and electro-welded supports (available with a thickness of either 10 or 12 mm, also in clear). Underneath it, two striking double curves in Canaletto walnut stained in wenge create two sinuous curves that add a sense of movement to the piece, raising from two round bases in chrome-plated metal. The effect is modern and refined and of strong impact. Other finishes are available - please ask the Concierge.
