## AXIS ROUND LARGE DINING TABLE WITH TRANSPARENT BRONZED GLASS TOP BY STEFANO BIGI

\$6,420

### DESCRIPTION

This elegant and modern dining table designed by Stefano Bigi features a stunning base in solid Canaletto walnut. The structure rests on a round element in chrome-plated metal and curves to form two separate legs that create a delicate sense of movement, while they raise toward the top. The top is in bronzed tempered glass with electro-welded supports and can have a clear finish, with a thickness of 10 or 12 mm. This piece is also available in different finishes and in a slightly smaller size of 140 cm in diameter. Ask the Concierge.
