Brass Brothers & Co.

B'TREE FLOOR LAMP

\$2,170

DESCRIPTION

This stunning floor lamp is part of the B'Tree Collection, so named for the stylized silhouette of its lighting fixtures, shaped like delicate branches with light sources at the end of each branch. The brass structure has a wax-based black finish while the round black Marquina marble base supports a vertical stem divided in two segments so that the top can be moved as needed, with a black aluminum shade at its end. Two bright turquoise shades top two branches on the sides. All the shades have a precious gold leaf interior. The LED light is provided by three G9 max 18W bulbs.
