DESCRIPTION

This captivating coffee table combines classic and modern elements in a unique design defined by aesthetic lightness and high functionality. The clear glass outer frame is the rectangular coffee table that encloses the French-inspired chest crafted of bamboo plywood. The glass allows full view of the internal compartments and trays of the chest that can be easily pulled out, thanks to the brown leather handles with brass studs placed on the sides. The two large decorative bands across the glass table are also available in leather and brass, adding texture depth to this eclectic piece.
