\$3,510

### DESCRIPTION

Part of the Bamboo Collection, named after the exquisite silhouette of the brass structure of its pieces, this etagere is a sublime addition to both classic and contemporary interiors. The exquisite texture of the brass is elegantly balanced by the sleek smoothness of the three graphite shelves. Showcased alone to hold books or collectibles in a small study, bedroom, or entryway, or combined with the other items from the same series, this will be a refined choice for any room in the house.
