## BAMBOO OCTAGONAL COFFEE TABLE

\$5,690

### DESCRIPTION

The striking silhouette of this octagonal coffee table will be the focal point of a modern or classic living room, where it will hold books, collectibles, vases, or lamps, with refined allure. Part of the Bamboo collection, its structure is in brass comprising eight legs joint together by horizontal elements. Each piece is shaped to evoke the texture of bamboo, while the octagonal extra-clear glass gives an unobstructed view of the base. For a cohesive effect, it is possible to combine this with the other items in the same series.
