BAUHAUS 100 YEARS PLATE

\$90

DESCRIPTION

Rethinking traditional household objects as "total works of art" - to use an expression that conveys the central concept in Bauhaus Movement - Consuelo Coti has designed a special series of ceramic plates that can be used on the table but also displayed on a wall in a modern home. Using the basic color combination of red, black and white, this ceramic plate showcases a Bauhaus logo with a male stylized silhouette in the foreground.
