Edi Chirumbolo

BEADED SCREEN

\$5,990

DESCRIPTION

A unique addition to an eclectic decor, this screen will hide a corner of a room or divide a space into two separate areas, while adding at the same time a stunning decoration. Its wooden base, painted in a delicate off-white shade, rests on two lateral legs and is divided into two parts. Each panel is adorned with a myriad of necklaces with a colorful pearl at the end, adding a whimsical and dynamic look to the piece. Two round elements mark the top of each section and are adorned with sculpted walnuts sourced in China with an antiqued finish.
