BEAR THRONE CHAIR

\$3,760

DESCRIPTION

Shaped as a stylized portrait of a bear, the backrest of this stunning chair is crafted using a mix of larch, pine, fir, and Swiss pine. The wood is reclaimed from the floors of 16th century homes and boasts the unique signs of time for a charming effect and is finished with real beeswax polish. Either as an accent chair in an entryway or living room, or as a dining chair combined with other pieces from this collection of Throne chairs, this will be an eye-catching piece that will enrich a contemporary, rustic, or eclectic home.
