BEDTIME FOR JOINERY NIGHTSTAND

\$4,395

DESCRIPTION

Boasting the masterful craftsmanship of this designer and inspired by Japanese joineries, this nightstand is an exercise in balance and artistry. The vertical tension of the piece features one drawer and a light, cubby-hole shelf resting on the top. The standout element of the piece is the visible joinery and the natural grain of the two woods used, maple and chestnut, whose combination creates a contrast of light and warm brown that is elegant and modern.
