### BEHIND THE SCENE PLATE #1

\$180

#### DESCRIPTION

From the Behind the Scenes Collection, artist Thayse Viégas boldly reinterprets the Girl with a Pearl Earring by Johannes Vermeer: the figure is no longer defined for her alluring gaze but rather for her face mask, subverting artistic conventions and societal notions of beauty. Made entirely of porcelain, both digital and manual techniques are used to bring this work of art to life. Hung in an entryway or displayed over a mantel in a study, this piece will be an enthralling accent in any decor.
