BEHIND THE SCENE PLATE #5

\$180

DESCRIPTION

Part of the Behind the Scenes Collection, this decorative plate will elevate a study or living room decor with its satirical charm and timeless artistic aesthetic. Inspired by 17th-18th century European portraiture, this piece depicts a woman in the process of a beauty routine with un-blended makeup contour lines. Fashioned of porcelain, artist Thayse Viégas transformed this timeless works of art to cleverly reveal the hidden truth behind carefully crafted standards of art and beauty.
