BEHIND THE SCENE PLATE #6

\$180

DESCRIPTION

Part of the Behind the Scenes Collection, this decorative ceramic plate effortlessly blurs the line between art and design. A reinterpretation of Jan Van Eyck's Portrait of a Man in a Red Turban, this piece replaces the iconic red turban with unkempt white hair that boldly juxtaposes his fierce gaze. Artist Thayse Viégas uses porcelain as a medium to convey satirical commentaries about idealized beauty standards, creating pieces that will be appreciated by artists and art history lovers alike.
