### POND LIFE CERAMIC PLATTER

\$1,640

#### DESCRIPTION

The menacing snake fight at the center of this ceramic plate does nothing to deter the sheer delight of this pond scene. A wonderful array of animals crawls around in perfect frozen harmony: a turtle, a mollusk, a millipede and a few other insects. Two frogs with balloon cheeks look on from lily pads. Small cracks and chips are part of the antique feel of this artwork and are not considered defects.
