BEND TABLE

\$13,470

DESCRIPTION

The solid ash wood structure of this long, rectangular table is an exercise in refined simplicity. Combining the straight angles of the inner side of the legs and the gentle curve that connects the top to its base, this piece is harmonious and sophisticated. Its standout accent is a 5 mm-thick sheet of aluminum that covers its top and the exterior of its legs. The metal is etched with a series of abstract decorations that evoke the surface of the moon, for a strikingly contemporary look.
