BERGÈRE ARMCHAIR

\$4,560

DESCRIPTION

This exquisite armchair's design is inspired by the elegance of the early 20th century furniture. What makes it a uniquely modern piece is the fact that the precious fabrics that cover its cushions are a combination of Japanese silk, jute, Venetian brocade and Venetian damask. These fabrics bring their distinctive characters together to create a harmonious ensemble characterized by delicate ecru colors. The structure is in hand-carved poplar wood with feet in beech wood.
