Mario Cioni

BIBO 112 BOTTLE

\$335

DESCRIPTION

The harmony of waves finds its consecration in every piece of the collection in a perfectly balanced mixture: from the gentle lightness of the champagne flute to the neo-materialistic abstraction of the ice bucket. This bottle with its sinuous body, topped with an elongated neck and round stopper, is characterized by a layered silhouette that adds bold elegance to the piece. It can be displayed on a bar cabinet or cupboard as a wine decanter or liquor bottle, or it can be used to serve drinks, combined with the other pieces in the Bibo collection for a cohesive look.
