BIG CACTUS VASE

\$690

DESCRIPTION

This handcrafted ceramic vase is a charming vessel to display flower arrangements in a modern and rustic home, and it will also make a gorgeous statement on its own as a centerpiece on a table or console. Inspired by the cactus plant, the vivid colors are painted by hand over a white-glazed surface that alternates non-toxic opaque and glossy enamels. Available in a limited edition, this vase is signed with a company logo under the base.
