BIG GIM WHITE TABLE BY FRANCO RAGGI

\$3,240

DESCRIPTION

Unique in its minimalist industrial style, this table displays an uncompromising quality with its solid steel construction that exudes strength and lightness at the same time. The slim sheet-steel top (2 mm thick) is supported by chunky, oversized legs (15 x 7.5 cm), all in epoxy-painted embossed white. The peculiarity of this design is in the setting of the rectangular legs, which are mounted in alternate lengths on the four corners to create a dramatic and bold look suitable for contemporary and industrial dining rooms. It is available also in black phosphate finish with wax coating.
