D3CO

BIO BACO IVORY SOFA BY SARA FERRARI

\$8,555

DESCRIPTION

Part of the Baco Collection, this sofa is made exclusively of 100% natural materials, with the addition of very few metal joints. The birch structure is padded with certified, non-allergenic, vegetable natural oil and officinal herbs, and 100% natural latex foam. A modern reinterpretation of the classic capitonné style, the sofa has an ivory fabric upholstery with a tufted orange backrest. Unlike traditional capitonné, the backrest simply lays against the seat without any fastener. This elegantly proportioned sofa is available with backrests in different sizes, also plain.
