BIRD FEEDER

\$2,390

DESCRIPTION

A charming and sophisticated accent to adorn a patio, a veranda, or a balcony, this bird feeder will add a touch that is both rustic and sophisticated to an apartment in the city or a country house. A special item to add to a personal collection, or a splendid gift for a lover of nature, this object is both functional and decorative, thanks to its wooden open box enclosed in a structure that reproduces a stylized branch with leaves. The unique roof of the piece is covered in copper leaves, each painted by hand.
