BIRDS OF PARADISE CRYSTAL GLASS #1

\$215

DESCRIPTION

This exquisite glass is part of a collection of six pieces introduced at Milan Design Week 2018 that celebrates the lavishness and elegance of exotic nature. Crafted of blown crystal, the cylindrical shape of the glass is decorated with the stunning image of a bird of paradise, perched on a branch in the act of spreading its wings and showing the exquisite plumage of its tail. On the other side, the simple and sophisticated silhouette of a palm leaf graces the smooth surface of the piece, accented with pure gold for a striking final effect.
