## *Ceramiche Lega di Martina Scarpa*

### **BIRILLO GRAPHIUM GOLD VASE**

\$590

#### **DESCRIPTION**

Stunning in its classic simplicity, this vase is handcrafted of ceramic with a tapered conical shape and features a large mouth with a deep vermilion interior, whose dramatic luster is obtained with a century-old technique that, through a reduction firing at high temperatures, produce a chromatic iridescent effect. The "scratches" are made by hand on the clay-colored exterior to add a textured surface. This expressive and bold vase is best showcased in a rustic-chic and modern interior, where it can be used as a base for a glass-top side table or a container for plants in an entryway.
