**BISANZIO BLUE AND RED BOWL**

\$1,330

## DESCRIPTION

This stunning bowl boasts a dramatic conical shape resting on a small plinth base and two different decorative patterns, one outside with irregular spots over a blue background, and one inside with a succession of yellow, pink, and turquoise diamonds creating concentric garlands of mesmerizing effect. It is crafted using the "riduzione a gran fuoco," a baking technique using blast-fire reduction that reveals shimmering colors and iridescent reflexes. The metallic oxides used for the colors are applied before a final vitrification process at 920°C, creating the traditional majolica.
