**BLACK AND WHITE CENTERPIECE**

\$820

## DESCRIPTION

Part of the Black and White series, this centerpiece is shaped like a trophy, the small conical base rises to an ample bowl raises flanked by two small handles and culminating in a flared mouth. Entirely made of ceramic and hand-decorated, this piece will have a strong visual impact in any interior, thanks to the combination of the modern black and white stripes at the top, strikingly contrasting with the vibrant-colored floral motifs of the piece, directly inspired by traditional Deruta patterns.
