## CAPOTAVOLA BLACK AND WHITE CHAIR

\$840

### DESCRIPTION

Crafted by the expert hands of Modenese Gastone artisans, this chair is a work of art that can be displayed as an accent piece in a classic entryway, or enliven a modern dining room when placed in multiples around a minimalist table. The solid wood structure hints at baroque classics, with saber legs and curved backrest. The white finish of the frame's simple lines elegantly complements the black background of the seat and back upholstery, which is splendidly adorned with a superb motif of white curls.
