La Permanente Mobili Cantù

NATURAL FREECELL BOOKCASE

\$9,260

DESCRIPTION

This bookcase features a unique design originally created by Meroni Ceriani Cappelletti. This multifunctional item can also be used as a room divider due to its self-supporting structure crafted entirely in curved multi-layer wood. The four columns constructing this bookshelf are joined together to create a hive-like pattern and all the joining elements are in brushed brass. This piece will make a striking statement in a modern setting.
