## BLACK LOCUST BOWL

\$1,190

### DESCRIPTION

This superb object of functional decor of great visual impact will make an elegant statement in a contemporary or rustic interior. It was entirely crafted of locust wood by Nicola Tessari using a lathe with a particularly complex technique. The exterior is brushed and treated with iron acetate, while the interior is polished. These two treatments create an effect that highlights the different volumes and the grain of the wood. The piece is finished with a micro-crystal wax.
