## BLACK RECTANGULAR PANEL OF SANTO SPIRITO CHURCH

\$280

### DESCRIPTION

An ode to exceptional Florentine craftsmanship, this superb decorative panel evokes the grace of Basilica di Santo Spirito in Florence, built in the 15th century. The panel is crafted of repurposed wood, the silhouette of Santo Spirito hand-carved, painted, and assembled over a black wooden panel. The church silhouette is hand painted in a subtle ochre acrylic tempera applied in the "encausto veneziano" style, complete with custom-made details in the blue door and roof frames. A unique accent in any room, this statement piece will be appreciated by art historians and novices alike.
