Botteganove

BLACK WALL ART #2

\$590

DESCRIPTION

Abstract in design, this piece will instantly become the focal point of any modern living room. The composition features a miniature greyscale portrait with a carefully curated light to dark color palette, the diamond-shaped, Limoges porcelains tiles arranged on a black surface. This combination of colors creates a three-dimensional design that adds depth and contrast to this modern, upscale piece. The wooden frame on a grès support provides an elegant finishing touch. Small differences ensure that the painting is unique.
