## DESCRIPTION

Exuding rustic allure, this handmade majolica tile is a testament to expert craftsmanship and creative imagination of Sicilian artisans. The tile features four circular designs composed of scroll and frond motifs handpainted in a bright cerulean blue on an ivory background. The bold motifs are framed by an undulating outline, enhancing the timeless and dynamic geometry of the design. Hand-glazed to provide a smooth and protective finish, these tiles must be applied with minimal grouting to ensure a seamless design.
