BLUE JASMINUM WALL MIRROR

\$530

DESCRIPTION

Part of the Mirror of Wonders collection, this round mirror has a round shape with a beveled edge accented with a digital print of jasmine branches that evokes the romantic atmosphere of a garden in blossom. The graphic was made in a fablab in Milan, and hand painted in a delicate blue color. The back is also in solid blue, as the mirror can be used to add an original touch to a wall, or as a decorative tray to display plants and other trinkets. Hanging system included. The color of the mirrored glass (gold, pink, and blue) and digital graphic are customizable upon request. Ask the Concierge.
