BLUE MAPLE CHAIR

\$4,080

## DESCRIPTION

The chair is part of a limited series of unique and vibrant pieces of furniture crafted from the wood of tree trunks damaged or derived from industrial waste processing. Finished in light blue whitewash paint, the sinuous back in recovered maple wood backrest evoke a woman's bust, whose curves mirror the wooden seat (2cm-thick) fully upholstered in red cow leather raised on forged steel legs. Customization requires 30 to 40 days to complete from the order date, please ask the Concierge for details. Fire-branded with artisan signature and certificate of authenticity included.
