BLUES CHAIR BY STUDIO ARBET

\$2,450

DESCRIPTION

Either as an accent piece in a classic entryway, next to a retro-chic desk in the study, or to complement the Blues Vanity Desk in a bedroom, this elegant chair is the epitome of feminine sophistication. Its front legs are made of ivory-lacquered ash wood with cabriole-style curls matching the delicate curves of the back and armrests that extend to form the back support. The entire piece, except its front legs, is upholstered in beige eco-nabuck.
