Bottega Ghianda

SET OF 2 FERMAPAGINE

\$140

DESCRIPTION

Designed by the team at Bottega Ghianda in 2016, this modern piece celebrates the love for books, evoking the bond between the page and its reader. This book stand is both a functional object and a striking sculpture that contains a symbolic ring shape. Its sinuous silhouette, combined with the smooth finish of the maple, creates a striking contrast with the texture of paper. Either a unique addition to a personal collection, or a stunning gift to a lover of printed books, this piece will make a sophisticated statement in a modern home. Sold separately upon request.
