BOOMERANG RING

\$1,560

DESCRIPTION

Evoking the concentric movements of a boomerang flying in the sky, the sinuous curves of this ring create a dynamic tension that is modern and elegant. This unique piece was crafted of 925 silver with a rhodium finish that gives it a characteristic dark hue on the exterior, while the inner circle has a sanded finish for a contrast of colors. The face is adorned with a natural pearl of 1 mm diameter. Part of the Boomerang collection, this is a modular piece that can be combined with others to create striking effects.
