## BORA SET OF 6 MULTICOLORED GLASSES N. 1

\$830

### DESCRIPTION

This precious set is part of the Bora Collection, named after the wind that blows in the Venetian lagoon. Each of the six mouth-blown Murano crystal glasses has an oval cross-section and raises slightly tilted as if moved by a gust of wind. Each is a one-of-a-kind, signed and dated and dishwasher safe. The hand-applied decorations boast different vibrant colors, gold and silver leaf, and patterns that vary from the traditional "murrine" and "cannette" to more modern accents such as spots, spirals, and bands for a superb effect on a sophisticated table. Each glass is 102 H x 94 Å mm.
