BORDEAUX VASE BY DIMORESTUDIO

\$1,180

DESCRIPTION

This striking vase features a rectangular shape which sits on its longer side, creating more space for a larger flower arrangement to be placed in its slender rectangular opening on its top. The outside of the piece was given a glaze in a deep bordeaux color and an element hugging one side of the vase was given an antique gold color, serving as the perfect accent for the dark glaze. This elegant and sophisticated piece can adorn a table as the centerpiece and can also be displayed in an entry way or on a mantle.
