**BOTANICA RUG #2**

\$990

## DESCRIPTION

Reminiscent of the sophisticated shades of kaleidoscopes, this exceptional rug will make a bold statement in any modern or minimalist interior. Artfully fashioned of wool and viscose, this rug boasts a delicately unfolding flower with a concentric-ringed blue center with a white rim that radiates to pointed, light pink petals. Floating against a textured hunter-green background, the irregularly shaped edge creates a visually intriguing piece.
