BOTTE COFFEE TABLE

\$3,310

DESCRIPTION

Part of the Botte collection, this striking coffee table features an iron base and a rectangular glass top and utilizes pieces of wood barrels used to ferment wine. The staves used for this coffee table have a brilliant violet nuance inherited from the Amarone wine they contained, and are intersected facing each other to create an unconventional base on which the glass top rests. This unique piece blends creativity with modern aesthetic, and will make an elegant statement in a contemporary living room.
