Gaetano di Gregorio

BOTTLENECK 5 VASE

\$470

DESCRIPTION

Part of the Bottleneck collection, conceived by Gaetano Di Gregorio during his artistic residence in Dehua, China, and crafted by hand on a lathe, this one-of-a-kind vase was made of bisque porcelain and boasts an elongated body with the characteristic matte finish. The top is highlighted with enamel and adorned with a textured decoration obtained by adding fragments of porcelain to the mouth of the piece while still in the kiln. The effect is organic and sophisticated and will enliven a contemporary home, particularly a black-and-white dominated decor.
