Gaetano di Gregorio

BOTTLENECK 9 VASE

\$510

DESCRIPTION

A sophisticated and contemporary piece of decor, this stunning vase was handcrafted of bisque porcelain on the lathe. The sinuous curves of its silhouette have an organic matte finish and are adorned with a one-of-a-kind decoration obtained by adding porcelain fragments to the top of the piece, all around the small mouth, and down on its sides. Yellow enamel glues the fragments onto the vase adding a striking contrast in texture, finish, and color. This vase is part of the Bottleneck collection and can be displayed with the other designs of the series.
