BOULE PENDANT GOLD EARRINGS

\$170

DESCRIPTION

Combining the elegant glow of gold-plated brass and the minimalist rigor of contemporary design, this pair of earrings is a splendid addition to a modern woman's jewelry box. Both pieces are crafted by hand and their geometric silhouette is inspired by the sculptural elegance of architectural structures. A central sphere is the main decoration of a triangle-shaped support, whose flexible joints move with each movement of the body. The bold yet sophisticated effect will enrich both a special evening attire or a casual daytime wardrobe.
