Ceramica Gatti 1928

BOY PLATE

\$110

DESCRIPTION

The old-fashioned portrait of a boy carelessly strolling while blowing on a whistle is the charming central decoration of this ceramic plate. Part of a series of unique designs that will add a playful and striking accent to an eclectic interior, this plate features a white surface on which black and red are the colors that add respectively a naturalistic decoration and an abstract one, in the red concentric lines that cover its rim.
