### DESCRIPTION

A stunning example of masterful craftsmanship and timeless design, this chair is part of a collection of twenty designs that have in common a throne-shaped backrest and the use of reclaimed wood sourced from 16th century homes. Crafted of larch, fir, pine, and Swiss pine with a real beeswax polish, this piece features a sturdy and low structure supporting an elongated backrest shaped and decorated to resemble a stylized boy with a hat. This stunning piece can be used as accent chair in an entryway, study, or living room, or combined with other pieces to add character to a dining room.
