**BRAIDED LEATHER AND COPPER DOCUMENT PORTFOLIO
"CHEGGIO" - BROWN**

\$500

DESCRIPTION

This document portfolio is an essential, elegant work tool, crafted with high-quality Italian calfskin that is vegetable tanned, dyed with non-toxic, water-based colors, and woven with thin copper wires on exclusive looms. If any, minor imperfections and color shades are typical of the natural raw materials and of the unmistakable singularity of a product that will age with time, becoming even more pleasant and exclusive. The name of the bag "Cheggio" comes from a wide pasture situated on a slight slope, north of Antronapiana, at the beginning of Valle Loranco, in Piedmont.
