BRAMANTE CHAIR

\$1,965

DESCRIPTION

This exquisite chair was designed by Franco Poli with an easy backrest curved for maximum comfort and made with the combination of two precious woods: maple and walnut. The slightly curved back legs, the double ring around the arm and back, and the seat cushion in a light color give this piece a delicate mid-century allure, making this chair a perfect addition both to a modern interior or a more classic décor. Contract and commercial certifications available upon request.
