BRAMANTE CANDELABRA

\$6,850

DESCRIPTION

Modern and minimalist, this candelabra will make an elegant statement on a console, shelf, or mantelpiece. Its eleven spheres in black Marquina marble are connected to each other with brass elements that have a natural polish. This striking piece of functional decor was designed by Joe Gentile and Fabio Crippa of Studio ADL and is inspired by Bruxelles' Atomium monument. Its horizontal dynamic tension evokes a sense of continuity and timelessness.
